

JOIN THE RETINOID REVOLUTION

Dual Radiance Cream contains the novel Retinoic acid ester, Hydroxypinacolone retinoate (HPR), combined with Niacinamide (Vitamin B3). The elegant, moisturizing vehicle contains concentrated Sodium hyaluronate that leaves skin silky smooth. The potent non-prescription alternative retinoid is ideal for patients with blemish-prone and reactive skin. Patients will see a decreased appearance of fine lines and wrinkles with increased hydration.
